

MATHEMATICA IN DYNAMICAL SYSTEMS

BOLYAI INSTITUTE,
UNIVERSITY OF SZEGED

MAY 22-23, 2018

*In the frame of the International Spring School
Computer-aided Modelling of Dynamical Systems
22-26 May, 2018.*

Bolyai hall (2nd floor)
Aradi vértanúk tere 1, Szeged

Join our lectures to explore how computation can empower you in research, development and deployment. This school will showcase how you can combine your workflows with computation to deliver quicker and smarter results. Lecturers will present advanced developments and features for the Mathematica-aid in investigating dynamic models and more.

Explore new ideas and innovative applications around knowledge-based computation, development and deployment, made possible by Wolfram technologies.

This is a great chance to meet people in an interdisciplinary community whose research is enhanced with Wolfram Mathematica.

Participation is FREE, but you must register to attend. Participants should bring their own laptops with the newest Wolfram Mathematica installed. To see the schedule, more details and registration, please visit our website.
